

How to Play Texas Shootout Poker

Feeling extra Lucky? Place an optional wager in the Shootout Bonus circle and if your hand is one of the rankings listed on the Shootout Bonus payable, you're an instant winner!

The Shootout Bonus is independent of the primary Texas Shootout wager. You can win the Shootout Bonus even if your hand is not greater than the Shootout Bonus.

Select two of the four cards you receive to play. Or you may split your four cards and create two, two-card hands. The dealer flops five common cards. Using these five cards plus your two cards, make the best five-card poker hand possible. Beat the dealer's hand to win (dealer takes push).
